The Platinum Plan provides coverage for additional benefits - Class IV-Orthodontia and Class IX-Implants. These benefits are not included in either the Low or High Options Plans. The dental plan year is from February 1, 2024 through January 31, 2025.

The costs for monthly dental premiums increased by 3.47%. NOTE: There have been no dental premium increases since 2018. The dental plan year is from February 1, 2024 through January 31, 2025.

Your dental premiums are deducted directly from your MainePERS retirement benefit check each month. An Enrollment/Change Application needs to be submitted to MAR before the 10th of the month in order to have your deduction started in the correct month with MainePERS. If it is submitted after the 10th of the month and you would like to have your policy effective that same month, please call MAR at 582-1960 prior to sending the application to get the amount due. However, if you don't need your plan started until the following month you only need to send the application.
